JULIUS ROEHRS Co
RUTHERFORD NEW JERSEY

SPRING - FALL
1932

BUSINESS TERMS FOR NURSERY STOCK

Prices—Material in this catalogue is priced at the each and ten price. Where proper planting areas have been prepared, and the total purchase amounts to \$35.00 or more, the each price is the delivered, planted, and guaranteed price.

We have a free delivery service for material delivered within a radius of 20 miles of our nursery. The ten price is the delivered price within this area; for example, the first item in the catalogue, *Azalea Amoena*, delivered and planted would be \$1.20, and delivered only it would be 90c.

Guarantee—We guarantee our stock to be true to variety named, and will replace any that may prove otherwise or refund the original price, but beyond that, we assume no responsibility. We also guarantee all our field-grown plants, except collected plants, to live one season, provided the same are given ordinary care.

Claims—Any complaint for loss for spring purchases must be made by June 1st, and for fall purchases by November 1st. Replacements would naturally have to wait for the proper season, and as a general rule, spring replacements would be made the following fall, and fall replacements the following spring.

Packing and Delivery—Most of our stock is delivered by our own trucks, and all prices, except where noted otherwise, include free delivery within a radius of twenty miles of our nursery. If beyond this area, the stock will be shipped either express, freight or truck, and the cost borne by the purchaser.

Terms—Cash or satisfactory references must accompany all orders from purchasers unknown to us. Where credit has been allowed, bills are payable 30 days from date of shipment. No claims for replacement will be considered if an account is not paid when due.
